

Financial Management & Forensic Accounting Services

Improve your Association's financial and risk management with TAS' Financial Management and Forensic Accounting Services.

The TAS Finance team can assist with a broad range services, from short term projects to ongoing CFO services and Board support. All Finance staff are tertiary qualified in Accounting and / or Business Management.

What's Included?

The TAS Finance team can assist with short term projects and / or ongoing CFO services and Board support. All Finance staff are tertiary qualified in Accounting and / or Business Management.

Services may include:

- Review and analysis of monthly accounts
- Preparation of financial reports for Board
- Preparation of annual budgets and cash-flows
- On-going review of financial performance
- Implementation of a tailored investment strategy as approved by the Board
- Coordination of audit and tax returns by an independent auditor
- Audit committee support and attendance
- Preparation and submission of statutory returns
- Independent expense claim control and management
- Adherence and compliance with ASIC and ATO regulations
- Production of financial policies and procedures
- A review of current accounting packages
- Integrating banking, membership and accounting packages

TAS uses XERO, MYOB and Reckon systems for accounting.

Benefits

- Access to a highly qualified, experienced financial team
- Automates systems and upgrades to current packages
- Improved governance and financial transparency
- Reduced risk through regular reporting
- Independent control of your financial transactions
- Clearer reporting to aid Board strategy and decision-making
- Access to CFO services without the need to employ a full-time staff member
